GLOBAL*Contract*

THE CONTOURED WORKSURFACE CREATES A FLOWING AESTHETIC THAT TRACES YOUR MOVEMENTS
IN AND AROUND THE WORKSTATION

The modern office continues to change and evolve. At Global Contract, we are pleased to introduce Boulevard's curvilinear workflow surfaces to meet the demands of today's multi-functional work environments. From high density open office applications to fully enclosed private offices, Boulevard Systems are known for their unparalleled strength and rigidity, low cost of ownership, breadth of product application and multitude of finishes.

WORKGROUP TEAMING CLUSTER

THE CONTOURED WORKSURFACE CREATES A FLOWING AESTHETIC THAT TRACES YOUR MOVEMENTS IN AND AROUND THE WORKSTATION

The modern office continues to change and evolve. At Global Contract, we are pleased to introduce Boulevard's curvilinear workflow surfaces to meet the demands of today's multi-functional work environment. From high density open office applications to fully enclosed private offices, Boulevard Systems are known for their unparalleled strength and rigidity, low cost of ownership, breadth of product application and multitude of finishes.

WORKGROUP TEAMING CLUSTER

For greater comfort and productivity, curvilinear workflow surfaces allow users to move more deeply and freely into their station. And the friendly design and continuous flow encourages team work.

Numerous curvilinear workflow shapes are available for principal and secondary surfaces, computer applications and transaction tops. Choose between laminate with PVC edge, laminate with wood edge or complete wood in an impressive selection of colours and finishes. For specific sizes and specifications, consult your Global Contract Pricing Guide.
