

**GLOBAL CONTRACT NOW SHOWING AT IIDEX 'DESCOR GENTRY WITH GREENGUARD'**

**MARKET APPLICATION**

Executive and management level offices.

**DESIGN & INNOVATION**

The GREENGUARD Environmental Institute has awarded Descor, by Global Contract, the GREENGUARD Indoor Air Quality Certification under the standards of the institute for low emitting products and materials.

As an industry leader, we continue to take proactive steps towards reducing the negative impact on the environment. In keeping with this commitment, Global Contract is pleased to offer the Descor Collection with the GREENGUARD finish and materials package. Philadelphia, Kingston, Gentry, Markham, Versailles, Juno and Uxbridge are the first Canadian all-wood casegood lines to receive GREENGUARD Indoor Air Quality Certification.

Producing wood furniture casegoods with minimal impact on indoor air quality is very difficult because the typical raw materials used have high levels of formaldehyde and other chemical emissions. Descor took special care to select low emitting raw materials to achieve GREENGUARD Certification for these products.

GREENGUARD Certified furniture and furnishings enable architects and designers to achieve points towards LEED certification for indoor air quality.

The Global Group, Canada's largest manufacturer of business furniture for office and home use. Global delivers quality, variety, style and great value in ergonomically designed seating, casegoods, filing and storage cabinets.
