

GLOBAL CONTRACT ANNOUNCES LAUNCH OF JULIP™ LOUNGE SEATING

MARKET APPLICATION

Offices, lobbies, reception areas, waiting rooms, lounges, libraries and cafeterias.

DESIGN & INNOVATION

JULIP Lounge Seating offers a contemporary, clean, modular design that offers a full range of looks from traditional lounge applications to tandem settings. Julip provides the benefit of both mobile and stationary configurations, perfect for offices, lobbies, reception areas, waiting rooms, training areas, lounges, libraries and cafeterias.

The distinctive design combines a sleek contoured plywood back with a generous contoured foam seat available in one size and can be painted or stained in a variety of finishes, with a platform stained veneer and/or painted MDF.

The Julip design is based on a platform that is used for either a seat configuration and/or table configuration. Julip options include: arms, tables, cup holder, ganging clips, power bar, upholstered back and casters. A side table is also available with a second level surface made of aluminum with a clear anodize finish and different leg heights.
